Questions for the mind:

1. The study of typology can be challenging, but very rewarding to the careful student of the Bible. In biblical study, a type refers to an Old Testament person, practice, or ceremony that has a counterpart, an antitype in the New Testament. In that sense types are predictive. The type pictures, or prefigures, the antitype. The following is an example of a few types. Read the Old Testament text for each and then read the corresponding New Testament text.

1.1. Num. 21:8-9 (type) John 3:14 (antitype)

Why did God instruct Moses to make this bronze serpent?
Why were the people being bitten by the serpents? How does this type help you understand the antitype?

1.2. Exod. 12:1-7, 12-13 (type) John 1:29; 1 Cor. 5:7 Rev. 5:6, 8 (antitype)
How does the lamb in Exodus help you understand Christ as the lamb of God in the New Testament? How many observations can you make in Exodus 12:1-7, 12-13 that give you a greater understanding of Christ and the New Testament Passover?

2. Hebrews 7 tells us about an ancient priest-king called Melchizedek. Biblical scholars have debated over who this person was. Some say this priest-king was an angel who took on human form. Others indicate that he was actually a pre-incarnate manifestation of Christ Himself, a "Christophany," that had taken on human form. And still others say he was simply a human being, a real priest-king whose ministry typifies and points to the high priestly ministry that Christ would have.

What did Pastor Kenny say? What were his reasons? Do you agree? Why or why not?

3. Read through Hebrews 7:1-25. Write down as many things as you can that demonstrate the superiority of the priesthood of Melchizedek over the priesthood of Levi.
